Name	Description
Object Header	This is a Object Header which displays the objects similar to the Object List Item. Best you can show multiple attributes (on the left and right).
Object Header - Condensed	The Object Header is shown in condensed number unit and one attribute.
Object Header - Favorite & Flag	The Object Header can indicate whether the object has been flagged for further action. Change the flag elsewhere.
Object Header - With Image	An Object Header will also make space for a small image, via a URL for the 'icon' property.
Object Header - Active Title	The Object Header's title can be active to indicate the current state, like showing additional information in a popover.
Object Header - Select Title	This is a Object Header with a title selection switch between variants of the business object.
Object Header Responsive I	This is a responsive Object Header with a status/Attributes rendered next to the title in fullScreenOptimized mode (fullScreenOptimized = true).
Object Header Responsive II	This is a responsive Object Header with a status/Attributes rendered below the title in fullScreenOptimized mode (fullScreenOptimized = false).
